WORK EXPERIENCE

DICT Isabela Provincial Office

Intern

Jan 2025 - Present

- Helping to manage and maintain databases, ensuring data integrity and security, and assisting in data analysis.
- Providing support to staff and users, troubleshooting technical issues, and assisting with hardware and software problems.
- Collaborating on software projects, including coding, testing, and debugging applications that support local government functions.

Freelance Full-stack Developer

Self Employed

Sep 2024 - Dec 2024

- Developed and delivered three professional websites—Library Management System, Job Portal System, and E-commerce platform—using HTML5, CSS3, Bootstrap, AJAX, jQuery, PHP, and MySQL, ensuring client satisfaction by adhering to best practices and meeting project requirements.

PROJECT EXPERIENCE

Static Personal Portfolio | [Website](#) | [Github](#)

Project Title: Personal Portfolio Website (Capstone 1)

Role: Zuit Student (Front-end Developer)

- A responsive personal portfolio website using HTML, CSS, and Bootstrap to showcase my projects, skills, and accomplishments.

E-commerce | [Website](#) | [Github](#)

Project Title: E-Commerce Full Stack Development (Capstone 2-3)

Role: Zuit Student (Full-stack Developer)

- Developed a full-stack e-commerce application using the MERN stack (MongoDB, Express.js, React.js, Node.js), featuring user authentication, product browsing, cart management, and a secure checkout process.

EDUCATION

Jul 2021 - Present

ISABELA COLLEGES, INC.

- Bachelor of Science in Information Technology

Sep 2024 - Jan 2025

ZUITT TECH PROGRAM

- Main Course Package (MERN) Full-Stack Web Development

ADDITIONAL SKILLS

- Proficient in Microsoft Office such as: MS Word, MS PowerPoint, and MS Excel
- Good Work Ethics
- Teamwork
- Effective Communication
- Problem Solving and Analytical Skills

Resume Website | [Website](#) | [Github](#)

Project Title: Resume Website

Role: BSIT Student (Front-end Developer)

- Created a personal resume website as a freshman project for my BS in Information Technology, built with HTML, CSS, and responsive design.

Online Voting System | [Website](#) | [Github](#)

Project Title: SSC Voting System (Capstone Project)

Role: BSIT Student (Full-stack Developer)

- Developed a responsive online voting system using HTML5, CSS3, Bootstrap, AJAX, jQuery, PHP, and MySQL. The system is designed for seamless functionality across all devices and browsers, ensuring accessibility for all users. Additionally, it includes a registered domain name for professional hosting and easy access.

Socialbook | [Website](#) | [Github](#)

Project Title: Social Media Web Application

Role: BSIT Student (Front-end Developer)

- A fully responsive web application replicating key Facebook features, including user profiles, posts, likes, and comments. Built with HTML and CSS, it mimics Facebook's interface, showcasing my front-end skills and expertise in web structure and responsive design.
